PROFILE OF CHARLES MUSA & CO.

OUR BACKGROUND

Charles Musa & Co. is a major Nigerian firm established in 1988 with a broad-based range of legal services. It is equipped to undertake transactions of national and international scope.

Our clients include individuals, corporate and governmental agencies. We give advice, which enhance sound analysis and decisions that shape the formulation and implementation of various transactions. We offer solutions in a speedy and cost effective manner either through litigation or other alternative dispute resolution methods such as arbitration and mediation.

We understand the nature of the Nigerian business environment. This enables us appreciate the commercial considerations underlying transactions in which our clients are involved and the perceptions of issues by the said clients including their objectives, priorities and needs, whilst simultaneously equipping them to identify and mitigate any associated risk.

We always adopt business-oriented, imaginative yet practical and pragmatic approaches to issues based on a foundation of technical excellence in the law and a depth of commercial experience. Given the practicability of our ideas, our team of consultants and the friendly atmosphere in the firm, we are able to maintain a leading competitiveness beneficial to our clients and the transactions we handle on their behalf.

The firm was established because of the desire of the Managing Partner to create a single law firm capable of providing a wide array of legal services in a time-efficient and cost-sensitive manner to both local and foreign clientele in Nigeria.

OUR NAME

Was chosen by the Managing Partner who has as his interest the upholding of the ethics of the legal profession.

The objectives are three-fold: first, due to the importance of the vision conceived by our Managing Partner to ensure that the ethics of the legal profession would always be adhered to by the firm.

Second, to understate the importance of continuity required for the creation of a sustaining environment for the growth and continuation of a

truly focused and professionally organised practice, capable of outliving the founder.

Third, it was a tacit recognition of the input; intellectual, material and otherwise that would be required to attain the foregoing objectives.

OUR MISSION STATEMENT

The provision of the highest quality of professional legal service in a cost-efficient manner at all times.

OUR PARTNERS

The Partners of the firm are experienced legal practitioners who, prior to joining the firm, underwent pupillage at respected law firms within Nigeria.

While not being immodest, we consider it a privilege to have all of them working together as a firm.

OUR APPROACH

We believe that the Client can best be serviced and retained by an adherence to the highest standards of legal expertise coupled with a practical and imaginative approach to commercial disputes.

We recognise that the situation in which a Client finds himself is uniquely different and that even the same set of facts may often lead to different scenarios. We therefore strive at all times to ensure that for each Client we implement the necessary approaches that lead to a solution that is most effective and meets the peculiar needs of the Client.

OUR QUALITY AND STANDARD

We recognise the existence of established law firms who have over the years acquired a reputation for competent professional legal work.

We believe that our firm will survive and prosper only if we provide and maintain higher standards of service, the enthusiasm of our support staff and the integrity and discretion with which we conduct our Clients' affairs.

We are committed to investing substantially in the continuous acquisition of knowledge by our lawyers and support staff at all levels and in providing current information systems and technological support.
